#1 Rated by Customers.

For the past two years, we have received the best customer satisfaction ratings among industry peers, according to multiple independent, industry-leading polls.

Simple, Affordable Pricing.

Our monthly handset pricing is not only tough to beat, it's also amazingly simple. Ask us for more details on our affordable hosted solution.

Standard Features.

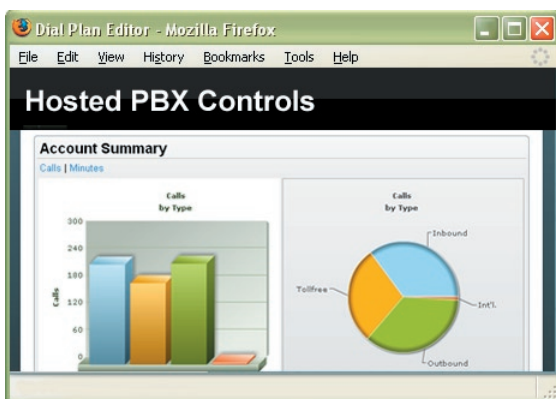

"Unlike other carriers, my account came standard with all of the features I needed, like call queues, music on hold, and voicemail-to-email."

-New York, NY

Perfect Fit.

"These guys are so easy to work with. Setup was a breeze and the price was right. Thank you for being the perfect fit for my business!"

-Phoenix, AZ

The freedom to analyze and customize all your business communications.

The online suite of PBX administrative tools gives you a whole new dimension of control. Create users, change voicemail boxes, and add ring groups with the simple mouse click. Gain visibility into the volume, duration, timing, and even geographical location of all your employee's phone calls. All these features plus much more are included standard in each account.
